

# Annual Report

**2021-22**

It is rightly said that the young children have the 'wind beneath their wings and are always ready to hitch their wagons to the storm'.

Fostering this thought, we at DCM Group of Schools endeavour to encourage, guide, and support students to become future leaders of the country and we believe that we render complete education, that education must have different principle aspects involving the embellishment of head and heart.

In September 2015, countries have adopted Sustainable Development Goals (SDG) to end poverty, protect the planet and ensure prosperity for all as a part of sustainable development agenda. Each of the 17 goals has a specific target to be achieved. For the goals to be achieved, the school is doing its part.

The school raised awareness using short videos among students and staff about SDG 2030. Banners and Posters about SDG goals were posted by students on various social media platform.

The staff has integrated SDG goals into their lesson plans and classroom teaching.

## **Accolades**

It was a moment of great Pride, as the school secured its place among the top three schools in the city, the top 10 schools at the state level, and the top hundred schools across India in the Education World India School Rankings.

The School has also been conferred the Top 3 schools in Ludhiana and Punjab and the top 10 schools in India in the category of 'Designs Thinking Leaders' by the Education world.

It gives me immense pleasure to share that the School has also been conferred with the prestigious ranking among the top 500 schools at the Brainfeed School excellence awards.

Another proud moment for DCM Group of schools was when DCM Presidency was recognized as the India's Top CBSE School for Holistic development of students.

It is our CEO, Dr. Anirudh Gupta's vision and passion have allowed us to deliver excellence in education and provide holistic development for our DCM schools.

## **Notable Achievements**

Rahat Bhatia, Divansh Saini, Chaitanya Ramakrishna Kale, students of IX and X selected for the inspire award under the aegis of the department of science and technology.

A grant of rupees 10000 each has been extended to prepare innovative projects in science.

The students of DCM Group of Schools claimed its position in an international competition organized by NASA. DCM is the only High School from India who got selected by NASA for the NASA human exploration rover challenge.

Slide 11

20 teams from DCM School submitted their ideas for Toyathon and it is a matter of pride that the dcmites qualified and the project **SAFE GO** got qualified in Aatma Nirbhar Bharat Abhiyan, Toyathon.

Slide 12

Chaitanya Ramakrishna kale won first position in the category project display in the science fest organised by Guru Nanak Dev University, Amritsar.

Master Chaitanya designed smart electric bike with features of GPS tracking system, mobile-based automation. It also has a detachable basket and a small refrigerator.

### **Wiztech**

Technology has become the wings that allow the educational world to fly farther than ever before into the limitless firmament of possibilities.

Keeping this in mind, DCM Group of Schools organize an annual event Wiztech- An Inter School Techno Edu Festival and provide students a much needed platform to show technical prowess and the top notch schools of the region participate in this mega IT Festival.

### **TEISCON**

With an emphasis on the holistic development of children and to encourage young mind set to argument their knowledge and awareness on the entrepreneurship, a first of its kind event TEISCON was organized.

DCM group of schools remains committed to fostering an entrepreneurial mind set in our children to be creators and innovators of the world.

### **TED Talks**

Students of DCM schools research and develop their ideas and share and learn how to present their ideas to the world in the form of TED talks. Every month Ted talks are arranged to amplify students' voices and ideas. These talks are packed with information and inspire and challenge students to think about creative topics in new ways.

We believe that education should appeal to the heart, feel the mind and also empower the hands. In Thanksgiving, I would like to reiterate that education is not mere filling of the pail but lighting of a candle.

We thank all those who have helped in nurturing the thought that education should appeal to the heart, feel the mind and also empower the hands.

Thank you.
